CATALOG

COINS OF SWEDEN AND POLAND

We are offering below coins which are not to be classed as ordinary, many rare dates will interest the specialist in these Series. The Swedish coins were always carelessly struck, the flans, if proven to be too heavy, were reduced with a coarse file, and the ensuing file marks never removed. Therefore many of these pieces show the marks.

If you wish to bid and are not well informed on the value of these coins, please send a list and we will gladly give you an estimate of the value of these pieces.

All are silver, unless otherwise stated.
